Howard College Opens Official Prometric Testing Center

SAN ANGELO – Howard College is pleased to announce that the college is now a Prometric Testing Center, meaning students and community members will no longer have to drive for hours to take important exams to obtain certifications.

Howard College has signed a contract with the leading global provider in testing services and has opened a five seat testing site, located at the West Texas Training Center at 3501 N US Hwy 67, in Room C125.

"We are so pleased to be joining with Prometric to bring this important service to San Angelo," said Nancy Hernandez, Division Director for Career and Technical Education. "It will benefit anyone required to take certain tests in order to become certified such as Cisco, A+, and Microsoft."

For more information on testing services offered through the Howard College testing center, call 325-481-8309 or visit the website at www.howardcollege.edu. To schedule a test, persons must first register through the Prometric website at www.prometric.com.

Prometric, a wholly-owned subsidiary of ETS, is the recognized global leader in technology-enabled testing and assessment services and the winner of CLO magazine's Learning in Practice 2007 Customer Service Award. Its comprehensive suite of services, including test development, test delivery and data management capabilities, allows clients to develop and launch global testing programs as well as accurately measure program results and data. Prometric reliably delivers and administers more than nine million tests a year on behalf of 450 clients in the academic, professional, healthcare, government, corporate, and information technology markets. It delivers tests flexibly via the web or by utilizing a robust network of more than 10,000 test centers in 163 countries. For more information, visit www.prometric.com.
